

Introducing the revolutionary Axio™ with SmartTouch™

The days of fussing and fidgeting with tiny hearing aid controls are over. Now, with SmartTouch, you can instantly adjust the volume level and memory setting of your hearing aid with the touch of a finger. Finally, state-of-the-art control has come to a state-of-the-art hearing aid.

Not only is the new Axio more powerful than its best-selling predecessor, it's the first hearing aid available with sophisticated SmartTouch. Axio adjusts instantly to different listening environments and eliminates virtually all types of feedback.

Designed to be powerful, adaptive and individual to your hearing needs, Axio hearing aids are so sleek and small,

they're barely visible. It's technology so advanced, you have to hear it to believe it.
