

Understanding Your Hearing Loss

The more you understand about hearing loss, the better you'll be able to take steps in improving your hearing. Here are the three types of hearing loss. Contact us today to learn more.

1. **conductive hearing loss** sound isn't conducted properly from the outer or middle ear to the inner ear
2. **sensorineural hearing loss** the inner ear is unable to properly transmit sound to the brain
3. **mixed hearing loss** a combination of conductive and sensorineural hearing loss
